Tex Flex

Anilox Cylinder and Plate Cleaner

Tex Flex

Where to Use

Tex Flex is a highly effective, low VOC flexo wash that rapidly disperses ink and paper lint from flexo plates. Tex Flex can be used to clean up plates, doctor blades, ink fountains, level probes, day tanks, viscometers, press frames and surrounding areas.

Benefits

- Concentrated - able to dilute up to 1:30, low cost usage
- Low VOC - environmentally preferable, healthy work environment
- Quick clean-up - easy removal of ink, increased production time

Directions for Use

Plate Cleaner: Dilute (1:4) 25 oz per gallon of water/
760 ml per 3.8 litres of water.

Anilox Cleaner: Dilute (1:6 - 1:10) 11.5 - 21 oz per gallon of water/
345 - 630 ml per 3.8 litres of water.

General Clean Up: Dilute (1:30) 4 oz per gallon of water/
120 ml per 3.8 litres of water.

Properties	
Color	Clear Blue
Fragrance	Mild
Viscosity	Liquid
pH	12.2
